BUBS SOUTHERN SON 33C

One of the first Charm sons, used here and now a senior herd sire at Spring Cove Ranch, Bliss, Idaho.

Semen is available through ORigen, ABS and has been used internationally. Sire to 49F and 68F.

BUBS CHARLESTON AE25

A full brother to 46F. Charleston calves are on the ground, and they are smokin'.

SOUTHERN CHARM may be the bull that has brought recent attention to our program because of his phenotype and balanced EPD profile, not to mention his impeccable carcass merit, but we have been offering quality, sound bulls for a long time.

The Ozarks can be a tough environment and not all cattle can handle the heat and fescue. We are working really hard to bring you bulls that are as tough as the conditions in which they are expected to perform. BUB bulls are fed a very limited grain ration, we believe in growing the bulls before they put their shine on. Maybe an unconventional "purebred" way of developing bulls, but the lack of unnecessary fat makes for sounder feet, joints, and fertility, not to mention, allowing us to recognize the easy fleshing, or not so easy fleshing individuals.

We are offering a set of sound, attractive bulls. They have been scanned and will have a current BSE. Many of the bulls qualify for the Top Dollar program, allowing you to have additional marketing avenues for superior carcass and growth cattle.

The bulls are offered on a first-come, first-served basis, starting on October 28th. A deposit will hold your bull until December 1st, 2019. Feel free to call, email, text or send a smoke signal if you have any questions or seek additional information or to come take a look for yourself.

Over a 1.0 on Marbling and Ribeye, and even though his EPDs don't reflect it, we would use him on heifers. A rare find at this price point. \$4,500
